

Yellow warning
Snow & Ice

Between
00:00 Wed 17 Jan 2024 and
12:00 Wed 17 Jan 2024

A mixture of sleet, snow and ice could cause travel disruption.

What to expect

- There is a small chance of travel delays on roads with some stranded vehicles and passengers, along with delayed or cancelled rail and air travel
- A small chance of injuries from slips and falls on icy surfaces
- A small chance that untreated pavements and cycle paths become impassable

Further details

A band of sleet and snow is likely to continue to push across this area and towards the southeast during the first part of Wednesday. This could bring 1-2 cm of snow over the hills in the region, with a small chance of around 5 cm falling in one or two upland areas.

At lower elevations sleet or very wet snow is likely, but no settling of snow is expected.

 Very low likelihood of medium impacts

Issued at 12:09 Mon 15 Jan, 2024

Yellow warning
Snow & Ice

Between
00:00 Wed 17 Jan 2024 and
12:00 Wed 17 Jan 2024

Further Details (continued)

As this band of sleet and snow clears to the southeast, temperatures will fall below freezing leading to widespread ice developing.

What should I do?

Snowy, wintry weather can cause delays and make driving conditions dangerous, so to keep yourself and others safe; Plan your route, checking for delays and road closures, amending your travel plans if necessary: If driving, leave more time to prepare and check your car before setting off; Make sure you have essentials packed in your car in the event of any delays (e.g., warm clothing, food, water, a blanket, a torch, ice scraper/de icer, a warning triangle, high visibility vest and an in-car phone charger).

Be prepared for weather warnings to change quickly: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area.
